19th July 2013

To whom it may concern,

This letter is to confirm that Mr. Andri Seta Baskara, born on December 11th 1989, worked with me in Yogyakarta on a Behaviour Change Study which was run in collaboration with Unilever PLC and Prompt Market Research Agency, Indonesia. The duration of the work was a total of 6 weeks spread between 25th February and 10th May 2013.

Seta was assigned various tasks which included preparation of soap bars containing electronic accelerometers, packing and labelling of products, product accountability, translation of local questionnaire information into English and data entry using Excel.

I found Seta to be an extremely reliable individual who turned up for work promptly, had excellent communication skills and performed his tasks skilfully and with great attention to detail. He also works well in a team environment, is very personable and has a good sense of humour.

I would have no hesitation in recommending him for the relevant responsible employment. I am expecting that this letter can be specifically used for such interest.

I would like to offer Seta my sincere thanks and Best Wishes for his future career.

Yours faithfully,

Dr. Peter Hall
