EXPERIENCE

GRADUATE PROJECT INTERN • AKUO ENERGY INDONESIA • 02/2016 – 05/2016
The internship was carried out as a part of my graduation project entitled "*Sustainability of Solar PV Off-Grid Rural Electrification Projects – What is the potential of success for private sector intervention in Indonesia*?"

INTERN • HIVOS REGIONAL OFFICE SOUTH EAST ASIA • 08/2015 – 10/2015
As an intern in Sumba Iconic Island project, I was mainly given the responsibility to provide a Standard Operating Procedure (SOP) based on Hivos' current practices.

CONTRACT ENGINEER • TRIPATRA • 08/2013 – 07/2014
Main responsibility was the management of contract with clients as well as subcontractors in Engineering, Procurement and Construction (EPC) Projects in Oil & Gas industry. The work included contract writing, negotiation, review, follow-up, and coordination with project management, engineering team as well as finance team.

PROJECT ENGINEER • JGC INDONESIA • 03/2012 – 08/2013
Main responsibility was assisting project manager to ensure project delivery in accordance with contractual requirements. The tasks included but not limited to coordination between different engineering disciplines, technical and commercial interface with clients, preparation of project documents, and removal of project bottlenecks.

CORP. BUSINESS DEVELOPMENT STAFF • JGC INDONESIA • 11/2010 – 03/2012
Main responsibilities included preparation of tender and proposal documents, review of client requirements, coordination of work between engineering disciplines during tender document preparations, review of contract and government regulations.
