## Philosophy

I am a hard working, loyal and mature worker with a variety of skills to offer.

## Education

### ROLL OF HONOUR

2012 - 2013

NCC Education

NCC Education is an awarding body and global provider of British education. Providing the complete education solution to over 200 Accredited Partner Centres in more than 45 countries worldwide, the organisation works in partnership with Accredited Partner Centres and universities to provide students with an affordable route to obtain a UK university degree or master's in Business or IT.

website : <http://www.nccedu.com/>

## Skills

### Unity Programmer

For develop games with unity engine i used C# language because it contains object oriented programming and the language like similar with java. i used visual studio for scripting.

### Android Programmer

Android Studio is the best tool for make apps for android, i learn this tools for make a side Apps project for me. i love this tools because the outputs apk is very small size and i love the way of this tools for developing.

### IOS Developer

Some of my games have to launch on appstore like handsome cat, peju 2, angry monster, and hungry titan. and on the way of process the game crash on build with xcode because of that i have to learn some basic of ios language like objective c.

### Java Programmer

On my college some of course tell me to develop dekstop apps with java. in this course i learn about object oriented programming and some IDE tools like Eclipse.

### PHP Developer

Native PHP and some PHP framework i used to build some websites for some of course task on my college. this language is very usefull because on some problem about connect an apps to sql database must be used this language like Unity to mysql, android studio to mysql and the other problem.

## Work History

---

### Game Programmer

2015 - now

"O GAME" Studio

O Game Studio is a indie game developer start on 2015 and based on bandung. all of this time this studio have to create 4 games for android, tizen, and IOS.

Play Store :

## Summary

---

Although i knowing some programming language, i just mastering on C# language because i used it for develop game on unity. i have to build some games for some platform like IOS, Android, and Tizen. although i do my games for my office i also do outsourcing project like from mie sedap, kemendikbud bekasi, and the other side small project so that make me productive.

If my skill included your requirements i love to hear your answer on my email inbox please. thank you very much lentera nusantara.
