

Dear Employment Manager

I am writing to express my interest in applying for the career opportunity in your company. This cover letter aims to show my activity, competency, and motivation in pursuing the opportunity.

I have completed studies in Faculty of Mathematics and Natural Sciences at Bandung Institute of Technology, which I majored in chemistry and submajored in physical-chemistry. I have conducted research by the title "Synthesis of Anionic Surfactant from Wasted Cooking Oil and Characterization".

Besides my academic, I also involved in organizational and cultural activities. I was a supervisor of Department of Human Resource Lingkungan Seni Sunda ITB. In cultural activities, I was a part of traditional Sundanese performance.

A year after graduation, I joined research team in microelectronics laboratory in Bandung Institute of Technology for making phosphat sensor based on modification of fiber optics. This project is collaboration between electronic department and chemistry department. I have made some improvement in this project. I have succeed makes 20 hours long chemical reaction become only 5 minutes. I think it was my greatest joy in this particular project.

In order to have a better skill as a potential leader, I joined marketing team at PT Karya Nadiso Utama in november 2014. My duty is to sell laboratory furnish product to a big company by a contract/tender. As sales person, I have what it takes to close a deal, such as negotiation, presentation, persistence, focus, and prospecting. Customer satisfactory is my another joy when I am doing my job. I hope I have a great asset as a professional by having marketing/sales skills.

I am committed to pursue a career; and I want to challenge myself in a greater circumstance. I also have strong willingness to contribute to make the best impact of my action into my circle. I want to be written in some history book that I have made changes.

I do believe by pursuing career under your company, I would be able to learn and contribute much to make the changes toward the best of me. Therefore I am looking for a position to match my personal drives.

Thank you very kindly for your consideration.
