

ILLUSTRATION  
PORTFOLIO

— A. YUDA .K —

## INTRODUCTION

I experiment with shape, colour and line to produce an illustration, Environment design, and Concept art. I take inspiration from Games, Movies concept or posters to create unique work with digital technology.

Based in the lively Tangerang city of Banten, I have been drawing most of my life and was always in trouble at school for doodling during lessons. Eventually, I found a place where this was encouraged and was awarded a degree in illustration.
