

Suicide Squad Trailer -Jokes on You.

January 21, 2016January 21, 2016

Just take a look.

Seriously, can't seem to choose what's better, the STUNNING Margot Robbie as Harley, Cara as Enchantress, that song, or that comic relief moment by Jai Courtney. It's just a near perfect trailer, they don't reveal too much (read: Batman V. Superman), but doing a bad-ass job in making the audience wanting more.

But the big winner for us is definitely Leto. Don't even care about that 'damaged' forehead.

Starring Will Smith, Jared Leto, Margot Robbie, Joel Kinnaman, Jai Courtney, Cara Delevingne, Adewale Akinnuoye-Agbaje Viola Davis, and Ben Affleck, Suicide Squad is set to be released on August 5th, 2016.

Sweet right? I was just up all night then this fucking popped up and I was like, hell yeah! Suicide Squad amirite. Just hope they don't overhype it, I had a feeling that Deadpool was going to be overhyped because you know, it was overhyped, then a private screening at comic-com proved me wrong and said that it was actually one of the best marvel films ever directed.

You saw the private screening of Deadpool? That's sweet man! I was actually a bit sceptical about it, I don't know, there's something I don't like about Deadpool trailer. But now i'm excited about it!

Not going to do a review though, that would be stupid and not fair on everyone else, but you know... prepare your body for pretty good stuff.

Legit right? The first moment, I saw the official suicide squad trailer, i wanted to punch a brick wall. I just couldn't control my emotions. The good thing about the MCU is that it will keep expanding and there's like a million other movies to be made afterwards any way, which is always good because I've always personally the MCU was always better than the DC cinematic universe anyway. I mean batman v superman, might be good but they gave everything away in the trailer anyway.
